About Our Camp

The Mansfield High School Field Hockey Camp is designed to teach field hockey tactics and skills to both the beginner and experienced player in a fun, safe and positive environment. Campers will have the opportunity to test what they have learned through daily skills competition and game play throughout the week. The camp is open to girls entering grades four through nine in September, 2009 and is run by the Mansfield High School field hockey coaching staff, with coaching support from present and past college level players. In addition, we are fortunate to have a staff of junior coaches who are current varsity level players. This allows us to keep our player to coach ratio low, ensuring each player gets the attention she deserves. Campers are grouped according to age, with consideration given to experience level as well. No prior field hockey experience is needed and we welcome players from other communities.
