

Home Logic

At the Qualters Middle School, we believe that parent involvement is critical to the advancement of a student's education. We are pleased to announce that we are using a new web-based software tool called **Home Logic** that provides parents with real-time information about their child's attendance, schedule, class assignments and term grades.

If you are interested in gaining access to the Home Logic system, please fill out the form below and have your student return it to their homeroom teacher or the main office as soon as possible. **A login name, password, and information regarding accessing and using the program will be emailed to you.** Only one password will be assigned per household/address per family.

If you have any questions, concerns, or feedback, you may email QMSlogic@mansfieldschools.com.
