

FACILITIES PLANNING

The Mansfield School Committee is responsible for the regular operation and development of its physical plant. For this reason, the Mansfield School Committee will concern itself with both short- and long-range planning and will have before it a long-term building use program to serve as a guide.

This program will be subject to systematic study, revision, and extension. The respective projects will be acted upon individually when proposed for implementation.

The building use program will be designed to provide adequate facilities to conduct full-time elementary and secondary education programs for all pupils residing in the district and such adult and interdistrict and interagency programs as approved by the Mansfield School Committee.

The program will be planned and modified as needed to conform to changes in projected enrollments, demographic shifts, course of study, and availability of construction funds

The Mansfield School Committee will rely on the Superintendent of Schools to provide an ongoing study of facilities use and development. The Superintendent of Schools will present his/her recommendation for facilities utilization, development and closure.
