

Adaptive Dance Class

One-Day Trial in December!

On the Barre in Norton is offering a one-day **Adaptive Dance Class** trial in **December** for children with Autism Spectrum Disorder, Down Syndrome, and other developmental delays and disabilities. In this class, students will safely explore movement and musicality, while developing physical, social, and emotional growth.

Let's give these kiddos the chance to dance and teach them that dance is for everyone! Our hope is to bring this Adaptive Dance Class on as a full session in the spring.

Kids of all ages and abilities are welcome!

If your child is interested in joining this one-day trial class, please contact Christine at otbdancestudio@gmail.com for more information.
